2 March 1988

MEMORANDUM FOR THE RECORD

FROM:

[redacted]
Chief, NPIC Arms Control Staff

SUBJECT: Discussion with SSCI Staff Member (U)

1. On 29 February, I was approached, during a session with the SSCI Staff, by Mr. Chris Straub, also from the SSCI Staff, and asked to meet with him on the subject of Soviet Short Range Ballistic Missile (SRBM) systems. After coordinating this with [redacted] C/ACIS, I met with Mr. Straub. [redacted]

2. The discussion with Mr. Straub was brief and included, primarily, an estimate of the status of SRBM forces after the INF Treaty enters into force. Several of the questions could not be sufficiently answered during this session and we agreed to setup another session to further discuss these areas. This follow-up session has been arranged through the Office of Congressional Affairs for 2 March. [redacted]
